Our thoughts

Problems encountered making DS
→ research??

Interactions
people to people
person to camera

Reflection - weight - emotion - optimization

How do we set this up for research?
data → random v convenience sampling

Goal directive v co-production

Methodology
crit: ethnology? storyteller as researcher

Opportunity to be seen / tell story
Empowerment

Identity
Process - not just the technology

Boundaries - What is a DS not a DS
Diverse approaches

Authenticity

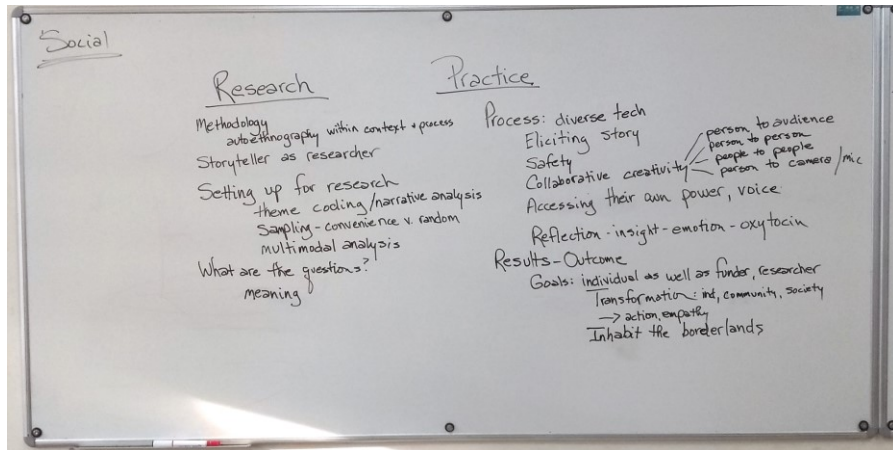

What is safe space - Well being
avoiding trust

Transformation - action - empathy
